#### What Butte has been to Montana, Ely will be to Nevada.

'Nevada is booked to make a great record as a copper producing State. Years ago it attracted the attention of the mining world as a silver producer; today it is doing the same as a producer of gold, and ten years hence it will shine as a copper center. I am also confident that Nevada will also produce two good mining camps to each and every one that is developed in all the other mining states in the West. And in ten years 'Ely,' Ney will be synonymous with 'copper' just as is Bu te today."

Such were the expressions of Frank Paul a mining man who is largely interested in property in the vicinity of the camp of Ely, Nev., while in Salt Lake on busin as in conn e ion with property in Ely. He states that with the completion of the Nevada North re rai road from Toano to Ely the camp vill b heard from in an unmista anable manner by its vist sinesion of copper.
